Professional Summary

Full-stack developer with 3+ years of experience in TypeScript, Next.js, Node.js, MongoDB, and HTML/CSS. Skilled in building scalable applications, RESTful APIs, and implementing TDD and accessibility standards. Experienced with integrating Generative AI features and tools. Familiar with Docker, quick to learn, and a proactive team player focused on delivering high-quality software and driving project success.

Technical Skills

Frontend: React.js, Next.js, React Native, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material UI, Zustand

Backend: Node.js, Express.js, MongoDB, PostgreSQL, Redis, Socket.IO, JWT Authentication, NATS, Supabase

Tools & Platforms: Git, GitHub, Bitbucket, Docker, TurboRepo, Vercel, Postman, VS Code, Linux, Bash Scripting, Sentry

AI & Developer Tools: OpenAI APIs, Prompt Engineering, AI Feature Integration, LLM-based AI Assistants

Experience

Software Development Engineer-I

Nov-2025 - present

Underpin Technology FZ-LLC.

Remote

- Worked on real-time socket-based communication to connect and manage live game sessions.
- Designed and implemented a ledger system to track session-wise transactions and maintain user wallets accurately.
- Implemented CloudFront resource caching to reduce download requests, bandwidth usage, and infrastructure costs.
- Focused on performance, data consistency, and reliability for high-frequency transactional systems.
- Optimized sportsbook API integration by reducing token consumption from 180 to 30 tokens per request, significantly lowering operational costs while maintaining functionality.

Software Development Engineer-I

Aug-2023 - Aug-2025

Languify Pvt. Ltd.

Bhopal

- Developed Spoken English Proficiency (SEP) system for **Cambridge University**, handling 10,000+ assessments/day.
- Applied Test-Driven Development(TDD) practices to deliver high-quality, maintainable and reliable code.
- Implemented Redis caching to optimize performance for user-specific API responses, reducing database load
- Integrated **OpenAI prompt** into core product features to enhance personalized learning and content generation.

Freelance MERN Developer

Sept-2022 - July-2023

Remote

- Designed and deployed backend systems for diverse industries, integrating Node.js, MySQL & API solutions.
- Successfully delivered and deployed projects-**Nana Dairy Farming, Ashi Helmet Store, and Tenant Network**.
- Developed features such as Razorpay integration, email authentication, WhatsApp verification, and analytics.
- Improved performance by unit testing, debugging, and database optimization following TDD and SOLID principles.

Node Backend Developer (Intern)

Jan-2022 - Aug-2022

Jungleworks Pvt. Ltd.

Chandigarh

- Acquired practical skills in Node.js, Express, MySQL, and JavaScript by working on live projects.
- Worked on features such as a coupon system, commission settlement, email triggering, and debugging.
- Managed monthly sprints for the live project **Rappo**, ensuring timely delivery of tasks and features.

Projects

Tenant Network (Real Estate) | React, Node, MySQL

- Communicated with clients to gather requirements and deliver projects on time.
- Designed and developed the entire product, including frontend, backend, and deployment on Hostinger VPS.
- Implemented WhatsApp OTP authentication, used Google Cloud Bucket, and optimized the platform for SEO.

Education

Chandigarh University

BE- Computer Science and Engineering – GPA: 7.56

August-2022

Gharuan, Punjab
